

ROASTING COATING LINE

Coating nuts is a very specialized processing procedure with specific demands. The know-how as well as the most appropriate selection of systems are vital for achieving a qualitative result. This frying-coating line of BIONOT response to this specific requirements with a complete semi-automated system of advance technology , in which human presence is not required at all stages.

ROASTING COATING LINE

Capacity	up to 150 kg/h
Power	16 KW
Dimensions	15,00m(L)x4,80m(W)x2,50m(H)
Net weight	4500 kg
Heating	GAS

- ▶ Completely stainless steel manufacture
- ▶ Flexibility and easy use
- ▶ Production cost efficient
- ▶ High coating quality
- ▶ Complete appliance of coating material
- ▶ Gentle handling of the product
- ▶ Design that complies with international safety, healthy food processing and environmental protection rules.
- ▶ Complies with CE standards
